Acknowledgements

- I would like to express my gratitude and thanks to everyone who helped me in completing this project. I would like to thank miss sanjana pandey for her guidance throughout the classes.

About Me..

- I am currently a student of class 11 and I study in a boarding school. I really like to attend short term courses as they offer a great learning experience and help us enhance our knowledge as well. I also like to swim and do it in my school.

About My Internship Journey with Clevered..

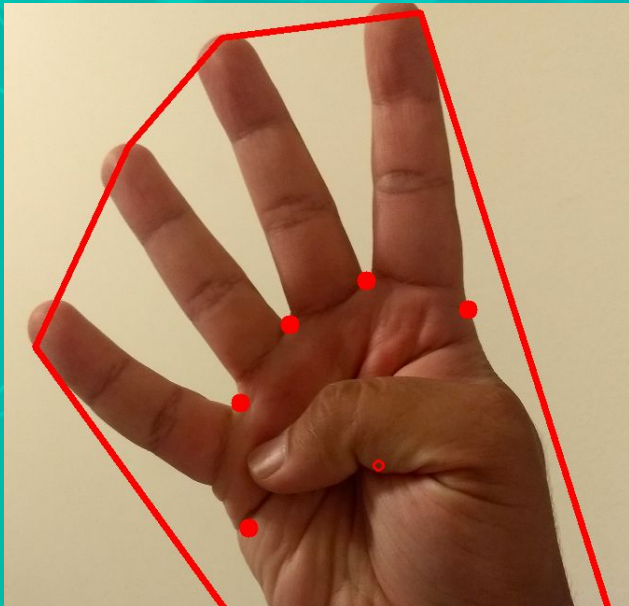

- The opportunity to do this course was amazing as this was my first time doing something like this i definitely enjoyed it
- My experience with clever has been very good, the mentors are very helpful and we can reach out to them whenever we face any problem

About App..

- App's Introduction

This is a hand gesture recognition app and it detects the number of fingers. The user gets an option to choose the image they want to work with

How do I use the App?

How to use the app

- Select the image
- Click on the submit button
- Wait for the app to recognize the gesture
